

Foundation (UTP Stage I)

Program Planning Guide

The Foundation (UTP Stage I) program is designed to adequately prepare you for entry to university level programs. Students are required to successfully **complete eight (8) courses and ILS** during the Foundation (UTP Stage I) program with a minimum standing as specified for each pathway.

Foundation (UTP Stage I) courses have no credit hour value and do not transfer to university programs; grades from these courses are not included in university grade point average calculations.

Students will take **MTH 099** or **MTH 103** depending on their Math Placement Test.

- **MTH 099** with a **minimum grade of C** is a prerequisite for MTH103.
- **MTH 103** is pre-requisite for all UTP II Math, Biology, Chemistry, Physics and Engineering courses. Please see the ICM course description for the minimum prerequisite requirement for each course. Some students would be required to take both MTH 099 and MTH 103 depending on their Math Placement Test.
- **MATH 1010** - Students who are intended to transfer to Faculty of Arts taking MATH1010 will not require to take MTH099 or MTH103.
- **CHM 100** is pre-requisite for UTP II Chemistry and Engineering courses. Please see the ICM course description for the minimum prerequisite requirement.
- **PHY 100** is pre-requisite for UTP II Physics and Engineering courses. Please see the ICM course description for the minimum prerequisite requirement.
- **ESR** and **ESW** is students may take one of the two courses per term. Students who end up jumping are not required to complete the second course.
